SIMPLE HABITS FOR EFFECTIVE PARENTING provides specific meaningful words to guide a child, actions that show daily love for a child, and knowledge to lead a child in the seven major parenting areas. Through this essential commonsense wisdom, you will more effectively parent your child and be able to “Correct your habits and change your actions for the better” (Jeremiah 18:11).

With this beneficial practical wisdom, you will possess the skills and tools to effectively lead and guide your child by implementing simple yet effective verbal skills and actions for a stronger parent-child relationship that produces a good decision-making, responsible child. ***SIMPLE HABITS FOR EFFECTIVE PARENTING*** and this Discussion Guide will enable you to become a “parenting expert” so you can *show* your child how to have a fulfilling, Godly adult life.

HOW TO USE THIS DISCUSSION GUIDE

General Thoughts

1. You can utilize this Discussion Guide in the following three ways.
 - A. As a *parent*, you can answer the questions on your own and reflect on the practical wisdom in each chapter.

- B. Together as *mom and dad*, both of you can discuss together the questions in each chapter so you are even more united in leading and guiding your child toward becoming a confident, capable, and responsible child.
 - C. In a small group may interact together to support, learn, and grow by sharing the *simple habits* that were most beneficial as well as how they are implementing those *simple habits* daily.
2. As you go through this Discussion Guide, identify, and write down at least one significant *simple habit* in each chapter that will make a difference in parenting your child. When both mom and dad identify a minimum of seven noteworthy *simple habits*, that will significantly increase *effectively parenting* your child.
 3. Change often takes time but understand that small changes can and will lead to greater improvement for more *effective parenting*. Do not wait until tomorrow but *act today* with these *simple habits* by learning, improving, and growing as a parent for the sake of your child.

Guidelines For A Small Group

1. To keep each person focused, take a moment, and select a leader who will facilitate wholesome discussions.
2. Your primary goal is to exchange ideas and reinforce beneficial *simple habits*, NOT try to solve every parenting challenge.
3. Your second goal is for every parent to end each meeting feeling encouraged and motivated that they will be more effective in leading and guiding their child.
4. Your third goal is to provide opportunities for each parent to practice the skills and tools learned from the chapter.
5. RELAX! I hope you enjoy this wonderful experience of growing as a parent, leading your child, and supporting other parents. Your group is not a classroom and there are no tests!
6. Please be assured that there are no “dumb” questions, and the emphasis is on learning skills and gaining knowledge to implement the *simple habits* for a stronger parent-child relationship and a more *effective parenting* approach.
7. Your leader must avoid letting anyone monopolize the meeting by trying to be the center of attention and not giving others a chance to share their thoughts. In addition, some members may want to just listen as a “spectator,” and simply learn through the comments of other parents. Certainly, that is fine.
8. Intentionally, there are more questions with each chapter discussion than can be covered in a single meeting. Structure the meeting to establish time limits for the various questions to make your time together most productive.

9. Lower your expectations. There are NO perfect parents or discussion gatherings. Placing expectations that are too high on your group meeting may lead to disenchantment and limit the positive benefits for becoming a more effective parental leader of your child.
10. This guide has questions to stimulate discussion about specific *simple habits*. However, it might also be helpful for the leader to ask two open-ended questions like:
 - A. What was the most significant idea you gained from this chapter? Please explain.
 - B. How do you plan to apply this valuable idea or another *simple yet effective habit* as a parent?
11. After the first meeting, perhaps begin subsequent discussions with a question like, “How did the *simple habit(s)* you emphasized during the last week make a positive difference in parenting your child?”
12. In the Bible, the number seven symbolizes completeness which is also why ***Simple Habits for Effective Parenting*** has seven chapters. Parents are more likely to be involved in a group when the discussion gatherings are completed in seven meetings.
13. At the end of the meeting if there is time, the leader may ask two general questions:
 - A. What *simple habits* from this chapter stand out in your mind? Please explain.
 - B. How will you apply the ideas discussed when parenting your child this next week?
